

RECRUITMENT

LETŠENG DIAMONDS

Letšeng seeks to engage a qualified Mosotho professional to fill the position of:

MAINTENANCE ASSISTANT - PATERSON BL BAND (1 x Vacancy)

PURPOSE:

To support Boilermakers in the safe maintenance of plant steelwork and fabricated components. The role involves assisting with fabrication preparation, welding preparation, cutting, grinding, basic repairs, inspections, installations and housekeeping to minimize equipment downtime and ensure production continuity.

MAIN OUTPUTS AND RESPONSIBILITIES

- Assist Boilermakers during fabrication, welding, cutting, grinding, repairs, installations and preventive maintenance activities.
- Perform basic boilermaking tasks such as measuring, marking, cleaning, grinding and preparing materials and joints.
- Assist with inspections and report cracks, wear, corrosion, damaged steelwork, chutes, guards, platforms and liners.
- Assist Boilermakers to ensure tools, welding equipment, consumables and materials are available and organized before and after maintenance.
- Maintain good housekeeping in the boilermaking workshop and around plant work areas.
- Follow all safety procedures, use correct PPE, and participate in toolbox talks and safety meetings.
- Perform isolation and make equipment and work areas safe before and after boilermaking maintenance.
- Record maintenance activities in job cards or daily inspections as instructed by the supervisor.
- Support Boilermakers with corrective maintenance on chutes, bins, hoppers, conveyors, screens, guards, platforms and plant steelwork.
- Identify hazards and risks while performing daily tasks and take preventative measures.
- Adhere to Security and HSE policies and procedures.

QUALIFICATION AND EXPERIENCE REQUIRED

- Basic numeracy and literacy skills, COSC and boilermaking/welding-related training will be advantageous.
- A minimum of 1 year experience assisting with boilermaking, fabrication or welding in a mining processing plant.

REQUIRED SKILLS AND COMPETENCIES

- Basic boilermaking, fabrication, welding preparation, cutting and grinding skills.
- Working knowledge of plant steelwork and safe boilermaking maintenance practices.
- Good verbal communication skills.
- Ability to work under supervision and follow instructions accurately.
- Sound interpersonal skills and the ability to work in a team environment.

Interested candidates should submit their applications and CVs by email to: www.pnet.co.za on or before the **9 October 2026**. Disclaimer: Only applicants who applied through: www.pnet.co.za will be considered and only short-listed candidates will be responded to.
